

PENREN /C this Week

March 8, 2004

Pentagon Athletic Center

The PAC will replace the existing 58-year-old Pentagon Athletic Facility with a larger facility that meets membership fitness and readiness needs. The facility will be located at basement level underneath and adjacent to the Pentagon's Mall Terrace.

New machines and equipment are being installed every day leading up to the March 29 Grand Opening.

Equipment has been delivered for the PAC's Cardio Room.

More info on this project can be found at:
<http://renovation.pentagon.mil/pac/pac.htm>

Wedges 2-5 Renovation

Wedges 2 through 5 encompass 4.5 million square feet of Pentagon space to be renovated by 2010.

A dramatically different looking MacArthur Corridor (Corr. 6.5, 2nd Floor) after demolition.

Exterior facing work on A-E Drive.

Some work takes place at night so tenants won't be disturbed.

More info on this project can be found at:

Roads, Grounds & Security

Two Roads, Grounds and Security Projects are currently underway, the Remote Delivery Facility Secure Access Lane (RDF-SAL) along Route 27 and the Pentagon Secure Bypass (PSB) Lane which involves the rerouting of Route 110 through the Pentagon North Parking lot.

Enhancements to the RDF-SAL...

With the RDF-SAL complete, the contractor switches to preparing the grade for the bike trail which will parallel the lane.

More info on this project can be found at:

Pentagon Renovation & Construction Program Office "MEET THE RENOVATORS"

George Jackson, Communications Specialist

George is part of PENREN/C's Info & Communications Management team, which produces publications like "The Renovator" and "PENREN This Week". He also coordinates speaking engagements and tours for the program.

In his own words: "Working at PENREN/C has given me the opportunity to work with a variety of people, from architects and engineers to generals and government officials. It's an exciting environment."
